

FW-01

# Natural Stone Coating

WATERPROOFING SYSTEMS

## PRODUCT PROFILE

Transparent nanotechnology surface-protection solution for natural stone and mineral substrates without altering their appearance.

**1/5/20 L**

PACKAGING

**-10°C +40°C**

APPLICATION TEMPERATURE

**6-15 m<sup>2</sup>**

CONSUMPTION

**12**

PH (25°C)

## KEY BENEFITS

- See the product page for the complete performance profile.

## TECHNICAL DATA MATRIX

|                         |                     |
|-------------------------|---------------------|
| Packaging               | 1/5/20 L            |
| Application Temperature | -10°C +40°C         |
| Consumption             | 6-15 m <sup>2</sup> |
| pH (25°C)               | 12                  |
| Shelf Life              | 12 ay               |
| Application             | Fırça, Rulo, Sprey  |
