

FW-400

Acrylic Additive Insulation Plaster

CONSTRUCTION CHEMICALS

PRODUCT PROFILE

Ready acrylic-modified insulation plaster for interior and exterior applications supporting thermal, acoustic and fire performance.

**20 kg**

PACKAGING

+5°C +30°C

APPLICATION TEMPERATURE

10 mm

APPLICATION THICKNESS

8 saat

WORKING TIME

KEY BENEFITS

- See the product page for the complete performance profile.

TECHNICAL DATA MATRIX

Packaging	20 kg
Application Temperature	+5°C +30°C
Application Thickness	10 mm
Working Time	8 saat
Initial Set	72 saat
Fire Class/Resistance	B1/F120 60 dk.
Theoretical Consumption	4-5 kg/m ²
Thermal Conductivity	0,021 W/mK
