

FW-401

Exterior Insulation Plaster

CONSTRUCTION CHEMICALS

PRODUCT PROFILE

Ready exterior insulation plaster with expanded silicates and inorganic fillers for thermal, acoustic and fire performance.

**50 L**

PACKAGING

+5°C +30°C

APPLICATION TEMPERATURE

5-15 mm

APPLICATION THICKNESS

24 saat

INITIAL DRYING

KEY BENEFITS

- See the product page for the complete performance profile.

TECHNICAL DATA MATRIX

Packaging	50 L
Application Temperature	+5°C +30°C
Application Thickness	5-15 mm
Initial Drying	24 saat
Initial Set	72 saat
Fire Class/Resistance	B1/F120 60 dk.
Theoretical Consumption	12,5-300 L/m ² /1 cm
Thermal Conductivity	0,019 W/mK
